DETAILED ACTION

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: The claims are allowable over the art of record because the prior art does not teach a multiband antenna comprising a multilevel structure comprising a conducting structure including a set of polygons, all of the polygons having the same number of sides, wherein the polygons are electromagnetically coupled either by means of a capacitive coupling or ohmic contact, and wherein a contact region between directly connected polygons is narrower than 50% of the perimeter of the polygons in at least 75% of the polygons defining the conducting structure, wherein the set of polygons comprises at least eight polygons; and wherein at least two polygons of the multilevel structure are spaced by means of a non-straight gap and in combination with the remaining claimed limitations.
